

Embrace Easier, More Effective Safety Leadership with SafeLEARN

Safety doesn't have to be a daunting task. Our Safety and Education for Leadership, Empowerment, and Resource Network (SafeLEARN) is designed to support the critical role you play in keeping your team healthy and safe.

Our monthly SafeLEARN roundtables provide an invaluable opportunity to invest in yourself by learning from both your peers and industry experts. These sessions will foster a supportive environment where sharing best practices becomes a pathway to a thriving educational setting.

Transforming Safety Management into an Enriching and Collaborative Experience:

- Preventing Employee Injuries: Ensuring a healthy and safe workforce, capable of fulfilling their critical roles in student education.
- Benefiting the Entire Community: A healthy and safe work environment boosts overall performance and excellence.
- Employee Well-being: Striving for our employees to return home in as good or better condition than when they arrived at work.

- Model of Excellence: Elevate your safety program to become a source of pride within your educational community.
- Collaborative Learning: Join us to make safety management a rewarding and collective journey.

Aimed at enhancing safety leadership in public schools and community colleges, these sessions offer:

- Collaboration Opportunities: Connect with peers across California's K-12 and community colleges.
- Expert Facilitation: Sessions led by PIPS Loss Control's safety experts.
- Tailored Content: Focus on occupations with higher injury rates like teaching, special education, custodial, maintenance, and operations.

Embrace Easier, More Effective Safety Leadership with SafeLEARN

Resources Include:

- Specific occupations and loss trends
- Regulations and plans
- Safety PPE, inspections, and training resources
- Tools, equipment, inspections, and training
