

# SAFER Cyber Program Services

Helping Members Strategically Address Cyber Risk

Cybersecurity is a fast-moving, multi-vector challenge that can outpace even the most capable IT teams. SAFER has partnered with Firestorm Global to provide cyber risk reduction services to all members. The SAFER Cyber Program weaves together three service pillars: Cyber Hygiene Services, Cyber Resilience Services, and Cyber Risk Management Services. These services provide members with relevant insights, resources and support to help anticipate attacks, withstand disruption, and rebound quickly.

## Cyber Hygiene

Monitoring and visibility of key risk indicators including member notification and support.

Critical Risk Alerts

Continuous Monitoring

Program Analysis

## Cyber Resilience

User-focused awareness resources to support general population as well as key staff being actively targeted.

Security Awareness

Employee Resilience

Drip Trainings

## Cyber Risk Management

Industry-specialized guidance to better understand, address and improve cybersecurity controls.

Cyber Risk Assessments

Policies and Procedures

Personal Support
