

# SAFER Cyber Risk Assessment

## Cybersecurity Risk Assessment for Public Education

Public education organizations face unique threats including ransomware attacks, advanced social engineering attempts and unique threats that are impacting education institutions globally.

SAFER members have access to a SAFER Cyber Risk Assessment powered by Firestorm Global and custom-built to meet the unique needs of K-12 and Community College districts.

The engagement assesses the organization's information security controls as well as identifies visible cyber risk, such as potential vulnerabilities and system weaknesses.

Engagements follow a structured methodology and approach to maximize effectiveness:

- \$0 mutual scope of work
- 20-minute engagement review and prep
- 2 ½-hour discovery engagement
- External cyber risk analysis
- 1 ½-hour engagement readout
- *Optional:* Cabinet, Board or Leadership review

### Key Benefits

- Discover potential unknown gaps and weaknesses
- Align internally on current-state environment
- Learn about current best practices
- Review targeted recommendations

*"Partnering with Firestorm Global has been immensely valuable. Their deep expertise in K-12 cybersecurity goes well beyond the standard assessments and evaluations typically offered by others in the field."*
